

INMIX-6F2

INMIX-6F2 6 in 1 Welding Machine

SPECIFICATION	
Model	INMIX-6F2
Input Voltage(V)	220V/50/60Hz
PMIG current	20-160A
MIG current	50-160A
MMA current	20-160A
TIG current	15-160A
CUT current	15-40A
No-load voltage	MIG/MMA/TIG:68V; CUT:310V
Duty Cycle	40%@160A (40°C)
input capacity	6.8KVA

Product Features

- Typically supports Gas MIG, MAG, Flux-Cored (gasless) MIG, MMA/Stick, Lift TIG or HF TIG,
- Includes Accessories MIG, TIG, Cutting Torch
- Interconnections Cables 2mtr length
- Electrode Holder with Earthing clamp 2mtr
- Power cable 3G1.5mm2*2mtr
- Contact Tips: 0.6, 0.8, 1.0, AL0.1

The NGEN - INMIX-6F2 is an advanced 6-in-1 Multi-Process Welding & Cutting Machine engineered to deliver maximum versatility on a single platform. Combining multiple fabrication processes into one compact unit, it eliminates the need for separate equipment across job sites and workshops. Designed for diverse metal fabrication and maintenance environments, the INMIX-6F2 suits a wide range of operational settings

 **Designed in CANADA**
Built to Last
