

RSR-2500

RSR-2500

Stud Welding Machine
(Single ph/220V)

4M Welding Gun

2M Earth Cable

Consumables

Product Features

- Easy operation
- High welding quality
- Charging voltage continuously adjustable
- Short charging times and thus quick welding sequences through electronically clocked inverter charging board
- Low-loss charging of capacitors through electronically clocked inverter charging board
- Indication of all functions by LED
- Indication of error messages by LED
- Digital display of selected welding time
- Compact construction

 **Designed in CANADA**
Built to Last

SPECIFICATION

Model	RSR2500
Welding range	Ø 2-8 mm
Welding time	1-3 ms
Capacitance	99000 µF
Charging voltage	60-200 V, continuously adjustable
Charging energy	1320 Ws
Power source	capacitor battery
Mains plug	earth contact plug according to DIN 49441
Mains supply	230 V (+/- 10%), 50/60 Hz
Protection	IP 21
Duty Cycle	100%
Dimensions (WxHxL)	42x26x24cm
Weight	17 kg
Welding material	steel, stainless steel, aluminium, brass
Suitable welding guns	PKM-1B, PHM-1A, PIM-1B
